

Dear EHRA network,

I decided to join EHRN- now EHRA, cos' drug policy in old Europe is now hijacked and mostly in hands of government officials and their satellites. As I am following work of your team gathered around EHRA since beginning of 2000' and I consider your work as independent as it could be in this complicated and gentrified world where is hard to find an structure that has stamina as EHRA has.

I am eager to work with you to stop with punitive practises that are putting PUD's outside of community and many times in jail. I fell deep determination to support activities of Harm Reduction and switch in legislation towards more humane laws for PUD's.

All best, Janko Belin
