Motivation letter for the Application to continue as member of the Steering Committee of EHRA in the next period

Dear colleagues,

I am writing this letter not only as a request but also as an appreciation for the possibility to be part of something big and transcending as EHRA is. It is not only an organization, but also a movement for me.

Probably I do not have to make this letter very long. It is an honor for me to be part of EHRA, it will be an honor, if it will be possible to continue. I am dedicated to Harm Reduction as the key how to help people and make the world more humane, fair, and united. This will continue if I am member of the Steering committee or our organization SANANIM will be only standard part of EHRA structure.

We are in difficult times. As always. And the only answer is to continue our efforts. I am always available to help if it is in my possibilities.

Warm regards,

Mgr. David Pešek
