

Motivation letter

Dear Madam/Sir,

My name is Marija Radović and I am social worker and program coordinator at NGO Juventas for past eight years and I have experience working within Harm reduction program on issues related to HIV and key populations on national level. Considering my working experience, I am writing to express my interest to be a member of the Steering Committee of EHRA.

Since 2018 I work as a coordinator of the Department of direct assistance for people who use drugs, sex workers and prisoners and have knowledge of HIV national policies, drug policies and regarding the area of labor, health protection and social and child protection and experience in advocacy and human rights. I am familiar with the work of EHRA and its field of activities and projects, and also I was part of a lot of EHRA trainings and seminars.

As a member of the Steering Committee I would have the opportunity to exchange information and knowledge about the topics of interest and try to contribute to your goals I seek for it in my daily work - social justice, respect for human rights, combating discrimination and well-being. The Steering Committee is a great way to share experience in working with communities in risk of social exclusion and key issues in Montenegro in relation to drug policies, social protection, health protection etc. In addition, by sharing individual experiences and exchanging opinions, I believe that together with other members we will come to new conclusions, solutions, and take important steps in areas of interest.

I believe this opportunity would be both – a challenge and an inspiration. If accepted I would untiringly take full advantage of the chances I am given, to learn and improve. I consider being a part of the Steering Committee as a great progress in my career, and the opportunity to develop, which is always one of my priorities and goals.

I look forward to hearing from you and I thank you for considering my application.

Sincerely,

Marija Radović
